CLINICAL DIAGNOSIS

PROMETHEUS TESTING ONLY. NO SUBSTITUTIONS.†

CHECK THE APPROPRIATE TEST(S) TO BE PERFORMED
(Specimen collection requirements on back)

NEW Specimen Requirements

IBD

☐ PROMETHEUS® **IBD sgi Diagnostic™** - #1800*
Includes serology, genetic and inflammation markers to help differentiate IBD vs. non-IBD and Crohn's disease vs. UC
Requires EDTA/Lavender Top Tube and Serum Tube

☐ PROMETHEUS® **IBD sgi Diagnostic** - #1800*
Add PROMETHEUS® **Crohn's Prognostic** - #2001*
If PROMETHEUS **IBD sgi Diagnostic** indicates Crohn's disease
Requires EDTA/Lavender Top Tube and Serum Tube

☐ PROMETHEUS® **IBD sgi Diagnostic** - #1800*
Add PROMETHEUS® **Celiac Serology** - #1155
If PROMETHEUS **IBD sgi Diagnostic** indicates non-IBD
Requires EDTA/Lavender Top Tube and Serum Tube

☐ PROMETHEUS® **Crohn's Prognostic** - #2001*
Includes serology and genetic markers to provide a patient's risk of future complications
Requires EDTA/Lavender Top Tube and Serum Tube

CELIAC

☐ PROMETHEUS® **Celiac PLUS** - #6355*
Includes both antibody and genetic tests with risk stratification
• tTg IgA • EMA IgA • Total Serum IgA • DGP IgA • DGP IgG • HLA DQ2/DQ8

☐ PROMETHEUS® **Celiac Genetics** - #6201 (Genetics only)*
Celiac genetic assessment HLA DQ2/DQ8 with risk stratification

☐ PROMETHEUS® **Celiac Serology** - #1155 (Serology only)
Includes the following:
☐ Anti-human tissue transglutaminase (Hu-tTG) IgA recombinant antigen - #1405
☐ Anti-endomysial IgA - #1505 ☐ Total serum IgA - #1605
☐ DGP Antibody IgA - #1255 ☐ DGP Antibody IgG - #1355

THIOPURINE MGMT

☐ PROMETHEUS® **TPMT Genetics** - #3300*
Genotype patients for individualized starting dose of thiopurines

☐ PROMETHEUS® **TPMT Enzyme** - #3320
Phenotype patients for individualized starting dose of thiopurines

☐ PROMETHEUS® **Thiopurine Metabolites** - #3200
Thiopurine metabolite (6-TGN, 6-MMPN) levels
Optimize ongoing dosing of thiopurines to reach and maintain therapeutic goal
Current therapeutic: ☐ 6-MP___mg/day ☐ AZA___mg/day ☐ Other___mg/day

ADD'L TESTS

☐ PROMETHEUS® **FIBRO*Spect*® II** - #4000

☐ PROMETHEUS® **Serum Infliximab/HACA Measurement** - #3130
☐ PROMETHEUS® Serum Infliximab measurement (only) - #3120

☐ PROMETHEUS® **Lacto*TYPE*®** - #6100*
Lactose intolerance genetic assessment

☐ Other Prometheus Tests ______

†By using the Prometheus test requisition, you are specifically requesting that your patient's specimen be sent to Prometheus for testing and asking that no alternative test be performed.

GENETIC CONSENT
*My signature below indicates that I have read and understood the entire consent form on the back page.

Physician Signature: ______ Date: ______

Patient/Guardian Signature: ______ Date: ______

SPECIMEN COLLECTION AND HANDLING PROCEDURES

The quality of laboratory test results is highly dependent upon proper specimen collection and handling procedures. Listed below are specimen requirements and handling procedures for tests processed by Prometheus Laboratories Inc. **Specimens MUST be labeled with patient name and date of collection. Unlabeled specimens will not be accepted for testing.**

Test Ordered (Turnaround Time* From Date of Receipt)	Transportation Kit Requirements	Type of Specimen Required	Tube for Specimen Collection	Recommended Specimen Volume**	Storage Conditions	Stability of Specimen
PROMETHEUS® IBD sgi Diagnostic (3-4 days) **PROMETHEUS® Crohn's Prognostic (4-7 days)**	Cold pack acceptable but not required	SERUM† AND EDTA WHOLE BLOOD Specimens must be shipped together in same box	**EDTA/Lavender Top Tube AND** Serum Separator Tube/ Red Top Tube	2.0 mL Serum **AND** 2.0 mL Whole Blood	Refrigerate– DO NOT FREEZE SPECIMEN	Shipment within 7 days of collection and storage at or below room temp is recommended
PROMETHEUS® Celiac Serology (2-3 days) **PROMETHEUS® Serum Infliximab/HACA Measurement (7 days)** **PROMETHEUS® FIBRO*Spect*® II (4 days)**	Cold pack acceptable but not required	SERUM†	Serum Separator Tube or Red Top Tube	2.0 mL (0.50 mL for Peds)	Room Temperature or Refrigerate	Serum is stable for 7 days at room temp
PROMETHEUS® Celiac PLUS (PROMETHEUS Celiac Serology and PROMETHEUS Celiac Genetics) **(3 days)**	Cold pack acceptable but not required	SERUM† AND EDTA WHOLE BLOOD Specimens must be shipped together in same box	**EDTA/Lavender Top Tube AND** Serum Separator Tube/ Red Top Tube	2.0 mL Serum **AND** 2.0 mL Whole Blood	Room Temperature or Refrigerate	Shipment within 7 days of collection and storage at or below room temp is recommended
PROMETHEUS® TPMT Genetics (2 days) **PROMETHEUS® Lacto*TYPE*® (7 days)** **PROMETHEUS® Celiac Genetics (3 days)**	Cold pack acceptable but not required	EDTA WHOLE BLOOD	**EDTA/ Lavender Top Tube**	2.0 mL Whole Blood	Refrigerate– DO NOT FREEZE SPECIMEN	Shipment within 7 days of collection and storage at or below room temp is recommended
PROMETHEUS® Thiopurine Metabolites (3 days) **PROMETHEUS® TPMT Enzyme (3 days)**	MUST be kept cool: ship with cold packs only	EDTA WHOLE BLOOD	**EDTA/ Lavender Top Tube**	5.0 mL Whole Blood	Refrigerate– DO NOT FREEZE SPECIMEN	Stable for 7 days refrigerated or maximum 24 hours at room temp

*Business days
**Note: Minimum specimen volume for genetic testing may vary with the WBC count.
†Serum: Internal studies have shown that one freeze-thaw cycle does not affect results; however, multiple freeze-thaw cycles are not recommended.

INFORMED CONSENT FOR GENETIC TESTING

I request and authorize Prometheus to test my/my child's genetic specimen for the test specified on the attached test requisition. The purpose of this test is to determine if I/my child may have a mutation in the gene(s) being tested, which has been found to be associated with this condition. I understand that this test will only test for this specific condition; it will not detect ALL possible mutations within this gene, nor will it detect mutations in other genes.

My doctor has discussed the genetic test ordered and has described the steps involved in the test, the constraints of the procedure, and its accuracy. I have been advised of the risks and benefits of genetic testing. The significance of a positive and a negative test result has been explained to me by a qualified medical professional. I understand that a positive test result is an indication that I may be predisposed to, or have, the condition listed above. If the results are positive, I understand that I may wish to consider further independent testing, consult my physician, or pursue genetic counseling. I understand that the test may fail, that the results may be non-informative or not predictive for my case, and that these tests may reveal information that is unrelated to their intended purpose.

Genetic testing offered at Prometheus is completely voluntary and is used to predict response to specific therapeutics and/or to provide information to aid in the treatment of gastrointestinal ailments. No unauthorized testing is performed on the specimens. I authorize Prometheus to report my test results directly to the ordering physician. The genetic specimens will be destroyed within 60 days of test completion. This consent does not authorize the use or release of any other medical information unrelated to this genetic test.

I understand that I may seek professional genetic counseling prior to signing this informed consent and undergoing the testing procedure, and I have received written information identifying a genetic counselor or medical geneticist by my treating physician.

SHIPPING INSTRUCTIONS: Prometheus has an agreement with FedEx Express® for priority overnight delivery service within the United States and Canada. Please call FedEx to schedule a pickup at 1-800-GoFedEx (463-3339). FedEx will pick up your specimens and ship them to Prometheus in San Diego at no expense to you. Prometheus will provide specimen transportation kits upon request.

NOTE: Multiple specimens may be shipped in a single transportation kit.
