*By using this Prometheus test requisition, you are specifically requesting that your patient's specimen be sent to Prometheus for testing and asking that no alternative test be performed.
[†]Acknowledgment of informed consent for NY state.

SPECIMEN COLLECTION AND HANDLING PROCEDURES

Test Ordered (Turnaround Time From Date of Receipt) ^a	Specimen Requirements	Recommended Specimen Volume ^b	Specimen Storage/Stability ^c	Transportation Kit Requirements
PROMETHEUS IBD sgi Diagnostic (3-4 days)	SERUM AND WHOLE BLOOD in Serum Separator or Red-Top Tube AND EDTA/Lavender-Top Tube	2.0 mL serum AND 2.0 mL whole blood	Room temp: 7 days Refrigerated: 21 days	Refrigerated preferred, ship with cold pack
PROMETHEUS Monitr Crohn's Disease (3 days)	SERUM in Serum Separator or Red-Top Tube	2.0 mL serum	Room temp: 7 days Refrigerated: 14 days	Refrigerated preferred, ship with cold pack
PROMETHEUS Crohn's Prognostic (4-7 days)	SERUM AND WHOLE BLOOD in Serum Separator or Red-Top Tube AND EDTA/Lavender-Top Tube	2.0 mL serum AND 2.0 mL whole blood	Room temp: 7 days Refrigerated: 7 days	Ambient or cold pack acceptable
PROMETHEUS 7C4 Diagnostic Test (3-4 days)	SERUM in Serum Separator or Red-Top Tube	1.0 mL serum	Room temp: 3 days Refrigerated: 7 days	Cold pack required
PROMETHEUS Celiac PLUS (PROMETHEUS Celiac Genetics and PROMETHEUS Celiac Serology) (3 days)	SERUM AND WHOLE BLOOD in Serum Separator or Red-Top Tube AND EDTA/Lavender-Top Tube	2.0 mL serum AND 2.0 mL whole blood	Room temp: 7 days Refrigerated: 30 days	Ambient or cold pack acceptable
PROMETHEUS Celiac Genetics (2-3 days)	WHOLE BLOOD in EDTA/ Lavender-Top Tube	2.0 mL whole blood	Room temp: 7 days Refrigerated: 30 days	Ambient or cold pack acceptable
PROMETHEUS Celiac Serology (2-3 days)	SERUM in Serum Separator or Red-Top Tube	2.0 mL serum (0.5 mL for peds)	Room temp: 7 days Refrigerated: 30 days	Ambient or cold pack acceptable
PROMETHEUS TPMT Genetics (2 days)	WHOLE BLOOD in EDTA/ Lavender-Top Tube	2.0 mL whole blood	Room temp: 10 days Refrigerated: 30 days	Ambient or cold pack acceptable
PROMETHEUS TPMT Enzyme (3 days)	WHOLE BLOOD in EDTA/ Lavender-Top Tube	5.0 mL whole blood	Room temp: 24 hours Refrigerated: 8 days	Refrigerated preferred, ship with cold pack
PROMETHEUS Thiopurine Metabolites (3 days)	WHOLE BLOOD in EDTA/ Lavender-Top Tube	5.0 mL whole blood	Room temp: 3 days Refrigerated: 8 days	Refrigerated preferred, ship with cold pack
PROMETHEUS FIBROSpect HCV PROMETHEUS FIBROSpect NASH (4 days)	SERUM in Serum Separator or Red-Top Tube	2.0 mL serum (0.5 mL for peds)	Room temp: 7 days Refrigerated: 30 days	Ambient or cold pack acceptable
PROMETHEUS LactoTYPE (7 days)	WHOLE BLOOD in EDTA/ Lavender-Top Tube	2.0 mL whole blood	Room temp: 10 days Refrigerated: 30 days	Ambient or cold pack acceptable

^aBusiness days.

^bNote: Minimum specimen volume for genetic testing may vary with the white blood cell count.

^cFrozen stability data may be available. Contact Client Services if detailed information is needed.

Specimens should be labeled with 2 identifiers and date of collection. Examples of acceptable identifiers include, but are not limited to, patient name, date of birth, hospital number, requisition, accession, or unique random number. Unlabeled specimens will not be accepted for testing.

SHIPPING INSTRUCTIONS: Prometheus has an agreement with FedEx[®] Express for priority overnight delivery service within the United States and Canada. Please call FedEx to schedule a pickup at 1-800-GoFedEx (463-3339). FedEx will pick up your specimens and ship them to Prometheus Laboratories Inc in San Diego at no expense to you. Prometheus will provide specimen transportation kits upon request.

NOTE: Multiple specimens may be shipped in a single transportation kit.

For more information, call Client Services at 888-423-5227, or go to www.prometheusbiosciences.com.

ACKNOWLEDGEMENT OF INFORMED CONSENT FOR NEW YORK STATE ONLY

I warrant that this test was ordered and that I have obtained the appropriate prior written consent. This written consent was signed by the person who is the subject of the test (or if that person lacks capacity to consent, signed by the person authorized to consent for that person) and includes the following (unless certain that the following information is not required by the state in which I practice):

- The purpose of this test is to determine if the patient may have a variant in the gene(s) being tested, which has been found to be associated with this condition.
- This test will only test for this specific condition and will not detect ALL possible variants within this gene, nor will it detect variants in other genes.
- Prior to my signature of the written consent, a qualified healthcare professional discussed with the patient the genetic test ordered and described the steps involved in the test, the constraints of the procedure, and its accuracy.
- My patient was advised by a qualified healthcare professional of the risks and benefits of genetic testing, and advised of the significance of a positive and negative result.
- The patient understands that a positive test result is an indication that the patient may be predisposed to, or have, the condition listed above.
- If the results are positive, the patient understands that he/she may wish to consider further independent testing, consult his/her provider, or pursue genetic counseling.
- The patient understands that the test may fail, that the results may be non-informative or not predictive for his/her case, and that the test may reveal information that is unrelated to their intended purpose.
- No unauthorized test is performed on specimens.
- Specimens will be destroyed within 60 days after collection when no longer required for clinical purposes.
- The informed consent does not authorize the use or release of any other identified medical information unrelated to this genetic test.
- The patient understood that he/she could see professional genetic counseling prior to undergoing the testing procedure, and received written information identifying a genetic counselor or medical geneticist by his/her treating provider.

These tests, with the exception of Celiac Genetics and Celiac Serology, are laboratory-developed tests that were developed and validated under Federal CLIA laboratory guidelines by Prometheus.
